Assignment

Module 2.4 Connecting and Testing Peripherals

1. **Connect a USB webcam to your computer, install any required drivers, and verify that the webcam works by opening the default camera app and capturing a photo.**

- Here, I am attaching a youtube video link for installation of webcam in windows machine. https://youtu.be/RHMCGVk5hTs?si=60F9jUuQtbAtv5N-

2. **Set up a local printer (USB or network), install the correct driver, and print a test page to confirm successful installation.**

- https://youtu.be/g8AyqIlgStg?si=L4tBrssOBimkrqsT

3. **Simulate a connectivity issue by unplugging the printer's USB cable, then use Windows Device Manager to identify and resolve the 'printer not detected' problem.

Hint: Check for error icons and use the 'Scan for hardware changes' option after reconnecting. **

- https://youtu.be/NCUTaNqJl_Y?si=bAvhy8Mlp0LdlNaT

4. **A user reports that their webcam video is not displayed in Zoom, but it works in the default camera app. Troubleshoot and resolve the issue, so the webcam works in both applications.

Hint: Check if another app is using the webcam or if Zoom permissions are enabled. **
